Colon Has Plan for U.S. to Cut Sugar Price

ASHINGTON, May 27 (UPI) — Senate Republican leader Everett Dirksen III, suggested today that the other States bring pressure against foreign sugar producers to stop any withholding that may be forcing up the price of the commodity. Dirksen told the Senate it was possible under present law by which the United States sets import quotas and pays certain nations a price higher than the world market. Such countries, he said, have an "obligation" to refrain from actions that could cause inflation here.

He said the domestic price was caused by a 50 per cent increase in Cuban production, increased consumption in the U.S., but "I am not in a position available to break this tie."

Undersecretary of Agriculture Louis S. Murphy will appear Friday at a Senate hearing of the Senate finance committee's investigation of soaring sugar prices. Murphy believes the prices will drop in the vicinity near future.

Two other congressional investigations have been authorized, one by a house banking subcommittee and the other by the Senate business committee.

Honored

DUBLIN, May 27 (UPI) — President Kennedy today became the 48th Freeman of the ancient city of Dublin.

In a simple, 20-minute ceremony at city hall, councillors of Dublin corporation voted unanimously in favor of an all-party resolution conferring the city's highest honor on the American leader.

SAIGON, Viet Nam, May 27 (UPI) — U.S. embassy officials announced today that South Vietnamese police had arrested a suspect in a recent attempt of trying to extort \$147,000 from American Ambassador Frederick E. Nolting.

The officials made the disclosure after local newspapers carried accounts of a ransom scheme which involved a supposed assassination plot by communists. Viet Cong agents.

Embassy officials said they were convinced no such plot existed.

They identified an unemployed Saigon accountant Nguyen Van Muu, 51, as the accused extortionist, and said he confessed to Vietnamese police after being arrested with a female accomplice, Le Thi Yen.

Muu wrote three letters to Nolting informing him of the alleged plot and promising to reveal the details if Nolting would pay him the money and issue him a passport to Europe or the United States, the officials said.

Wallace Request to Bar Troops Dumped

WASHINGTON, May 27 (UPI) — The Supreme Court rejected today a suit by Gov. George C. Wallace of Alabama to bar use of federal troops in Birmingham. The governor asked the high tribunal to declare President Kennedy violated the constitution by sending in troops to the state for possible riot duty in Birmingham. Wallace said neither he nor the Alabama legislature had asked for federal troops and contended such a first step was necessary under the constitution. The governor asked the court also to declare unconstitutional a postmaster general's order which had suspended the constitution's 14th amendment.

The supreme court in a brief order said the motion to file the governor's complaint was denied.

Wallace said, "The papers show more than that the President has made ready to exercise the authority conferred upon him by 10 U.S.C. Section 332 by alerting the National Guard merely because it is in the Birmingham area."

Both sides agreed on the merits of the constitutional question. The governor's complaint was denied.

Wallace took no part in the legal action. This made the court's decision 5-0.

In dismissing the governor's complaint, the court made no reference to a request by Wallace that it declare the constitution's 14th amendment invalid.

Wallace filed his suit in the supreme court on May 18.

A brief referred to the high court by the governor said the President's troop order was not a exercise of personal power and asserted Kennedy's action "if dictated by this court would not create a military dictatorship."

A topic brief by the defense department asked the court to reverse Wallace's suit, as being without foundation.

The President has statutory and constitutional authority to send troops into action as he sees fit and was not waiting for a resolution by a state, the defense brief said.

Helicopter Starts Flight to France

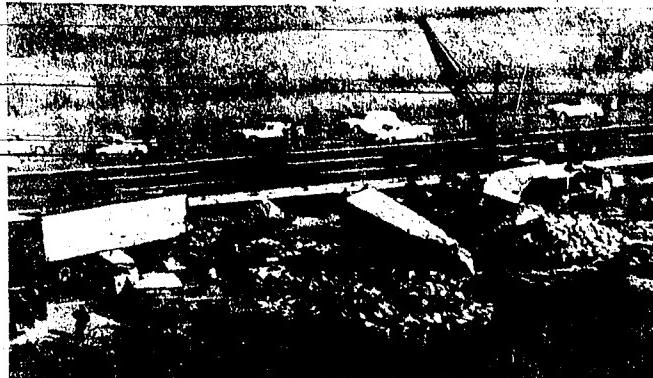

May 27 (UPI) — Helicopter pilot Vernon Coote took off this morning from a transatlantic flight before home. After a short stop in France, he is due to complete the journey in 14 hours, Paris, France.

Air force officials made a last minute change in the route cut, so the total distance was 3,500 miles and adding one more day to the journey.

AMID WRECKAGE left by tornado at Berdmore, Okla., Vernon Coote stands where counter was located in his service station-grocery store before tornado burst through tiny community.

Coote and his wife huddled behind candy counter and escaped serious injury.

Counter was located 150 feet away. Damage was heavy, but no serious injuries were reported.

SIX-DIED Monday morning when 14 vehicles piled up on a portion of the New Jersey Turnpike between Newark and Elizabeth. Helicopter view shows mounds of twisted wreckage as cleanup started. (AP Wirephoto)

Man Arrested On Charge Of Extortion

SAIGON, Viet Nam, May 27 (UPI) — Vietnamese police have arrested a suspect in a recent attempt of trying to extort \$147,000 from American Ambassador Frederick E. Nolting.

The officials made the disclosure after local newspapers carried accounts of a ransom scheme which involved a supposed assassination plot by communists. Viet Cong agents.

Embassy officials said they were convinced no such plot existed.

They identified an unemployed Saigon accountant Nguyen Van Muu, 51, as the accused extortionist, and said he confessed to Vietnamese police after being arrested with a female accomplice, Le Thi Yen.

Muu wrote three letters to Nolting informing him of the alleged plot and promising to reveal the details if Nolting would pay him the money and issue him a passport to Europe or the United States, the officials said.

Students Riot In Historic Virginia City

VIRGINIA CITY, Mont., May 27 (UPI) — A raucous crowd of college students descended Saturday on historic Virginia City, and police using dogs arrested about 50 for causing disturbance.

Authorities said most were students from State College in Bozeman, about 50 miles away.

The students reportedly came to Virginia City on a report free beer was being served in bars.

Violence was expected Sunday. A college official who was called to quiet the crowd, the highway patrol reported.

Paul Loucks said to

day all but a few of those arrested had posted bond and were released for later appearances on the charges.

Pope John Is Weakened by Hemorrhages

VATICAN CITY, May 27 (UPI) — Gravely weakened by recurrent hemorrhages, Pope John XXIII was confined to his apartment today. Concern grew about his condition.

A Vatican source said plans for President Kennedy to see the 81-year-old Roman Catholic pontiff had been suspended. Kennedy was due here about June 22.

Born-and-bred Bishop Van Liere, the Dutchman and vice-chairman for Vatican City, canceled several engagements in Rome. He was reported remaining in or near the Pope's apartment.

The Vatican switchboard received hundreds of phone calls asking about the Pope. Operators replied: "A little better."

At the Vatican press office there was no statement on his condition.

Informants said the Pope had a restful night.

Six Persons Killed In 14-Vehicle Crash

ELIZABETH, N. J., May 27 (UPI) — Six persons perished early today when 14 vehicles piled up in dense fog on the New Jersey Turnpike. Five of the victims were dead at the scene. A sixth died three hours later at St. James hospital in Newark. About 10 persons were injured, one of them critically. Police would not speculate on the cause of the accident beyond blaming the fog. One of the injured, A. J. Guithier, 43, of Port Huron, Mich., apparently drove the last truck into the pileup.

Guithier, driving a truck load of fish from a cannery to New York, said he never saw the wreckage in front of him.

He told newsmen he drove into a for bridge and the last thing he saw was the pileup of another truck just before plowing into the pile. He suffered minor head and hand cuts and was released after treatment.

He was identified as Blake St. Marie, 34, Sarnia, Ontario, Can.; Charles L. Hatch, 35, Richmond Hill, Ga.; Ronald K. Kirschbaum's son-in-law, a college student in school, let alone other public facilities not involving the same physical problems he claimed it was "fantastic."

Admiral newspaper editor, with his denial with his new boat, that Soviet cosmonauts have "outstripped" American astronauts, including Gordon Cooper.

He was replying to an article published earlier this month by William Randolph Hearst, Jr., whose newspaper, the New York Journal-American, published the story about the alleged Soviet space deaths. The admiral, however, listed number of names of those said to have been lost.

G. N. Carter, Engineer for Bureau, Dies

BOISE, May 27 (UPI) — State Recclamation Engineer George N. Carter, who came to Idaho from Nebraska to work one of the state's early major irrigation projects, died here Sunday.

Carter came to Idaho in 1908 to work on construction of the Twin Falls-Oakley irrigation project, which became the Boise River.

He was appointed reclamation engineer in 1938 after 17 years with the bureau of reclamation.

He had previously worked in Oregon, water resources and commissioner of the state reclamation department for 1921 to 1931.

Carter had been ill health for some time.

He served with the Twin Falls company for the North Side project at Jerome for three years after earning a degree in electrical engineering at the University of Nebraska and before his job with the bureau.

He joined the bureau of reclamation staff in Denver in 1941, came to Boise in 1942 in charge of new projects in southern Idaho and became director of engineering and manager of the Central Snake River district in 1949.

He was named regional irrigation supervisor for the Columbia basin watershed in 1954, a post he held until he became state engineer.

He joined the bureau of reclamation staff in Denver in 1941, came to Boise in 1942 in charge of new projects in southern Idaho and became director of engineering and manager of the Central Snake River district in 1949.

NATIONAL WHIRLIGIG

By ANDREW TULLY

WASHINGTON. May 27—This is one you can't see on size, because it comes from a man on the inside, because it's to be one of Dick Nixon's leading campaign, or maybe they'll run.

Nixon will run for governor of New York in 1966 and for the presidency in 1968. He has been a political figure since 1946, and he has many friends in politics, but he has not paid attention to his dental health, which are to be expected now because it's so early in the game.

He admits he is influenced by what he reads, because that's what he was told in his conversations with Nixon, before and after Nixon announced he was moving to New York, the man who lost the presidency to John F. Kennedy by a whisker. "Indicated" these were Nixon's words.

You have to be alert to the fat cats who are the dooms for presidential campaigns because no candidate gets to run without their help. And this is the way that particular cat sees it:

POLITICAL PRIME AHEAD—Dick Nixon is only 50 years old, and he is a "congenital" politician with him, running for office is a compulsive thing. In 1966, he will be only 53, in 1968 only 55. In other words, just approaching middle age, he is still a political lifer. Moreover, he was defeated by only 112,263 votes in the 1960 presidential election, although more than 78 million votes were cast for the two major candidates. He was a loser, but a powerful minority.

He is the last man standing at the White House.

Nixon is convinced that if Rockefeller loses his fight for the 1964 Republican presidential nomination, or is beaten in the presidential election, he will not be a candidate for a third term as governor of New York. He is also convinced that Nixon has been given this assurance from Rockefeller himself, in return for Nixon's support in the 1964 battle.

Perhaps the steel price boost would have had a greater effect on the family budget over the long haul, but the sugar increase is something that's noticed immediately by the housewife. It'll be progressive, as she purchases such items as bakery goods.

Higher sugar prices will alter many household plans for preserving and canning foods during the next few months. And if anyone doesn't think it's going to make some changes in shopping habits, all that's necessary is to check on sales of such items as sugar substitutes and sweets like honey.

In Idaho Falls, a grocer commented during a sugar price survey that President Kennedy was "pretty excited" about a \$6 a ton increase in steel, but that the sugar price rise amounts to about \$30 per ton.

The Times-News received a letter reading: "How is your sweet tooth? Did you notice how expensive it's getting to be? Last fall sugar was \$11 or \$11.50 a hundred; today it is \$15.50 if you can buy a hundred. I'll bet the farmers never see any part of that 30 per cent raise and they scream about steel raising \$6."

Never underestimate the power of the woman voter!

TERRIFIC PRICE

Although Russia leads the United States in manned space achievements, the lead has been established at a terrible cost of human life. Reports show a loss of five lives in the Russian space program. It's all in keeping with the communist disregard of human life and the communist fetish for bragging about accomplishments, but concealing all failures.

By contrast, the United States has postponed repeatedly a man a year scheduled space projects even when human passengers were not involved. Unless technicians believe everything is absolutely right, no American space project is started. When an astronaut is involved, every possible safeguard is taken. Americans will remember the last manned space project, involving Astronaut Gordon Cooper, was delayed 24 hours because of failure of a radar installation.

Undoubtedly this country will lose one or more lives in the space program, but it will not be because of the callous disregard for human lives found so frequently in the communist world. Under the circumstances, it wouldn't be surprising to learn Russia has plans to put a man on the moon, but no plans to bring him back.

The reports of Russian space failures immediately bring out the differences between cosmonauts and astronauts—the former are merely guinea pigs.

QUALIFIED FIGURES

Perhaps America's young men aren't quite as stupid as they've been painted in recent months by Selective Service. For instance, Secretary of Labor W. Willard Wirtz declared 38 per cent of young men called for the draft were rejected because of illiteracy. All well and good, but it seems there's a little qualification here that eluded everyone. It is that phrase, "called for the draft."

Selective service and defense department officials point out draftees are not a typical cross-section of America's young men. Those who are drafted represent a fraction left after most young men decide to meet their military obligation either through voluntary enlistment or in the various reserve programs. In other words, the best qualified young men usually don't wait to be drafted.

Now, suddenly, that 38 per cent "called for the draft" and rejected for illiteracy doesn't look so horrible. Selective Service says it should be about 23 per cent.

Even the lower rate is subject to qualification. "Illiteracy" as used in the rejection rate doesn't necessarily mean they can't read or write. Those who fail in the bottom 10 per cent on grading of the armed forces qualification test are rejected automatically. That raises the question of how many men make sure they rank in the bottom 10 per cent!

It all serves to point up the fact that close attention must be given when anyone starts tooting statistics around to prove a point. Wordings can mean everything.

QUIET ZONE FOR FOOTBALL—Shhhh! Read this on lip-ton in whispers. We don't want to disturb Ben Harry Stratton, the twin brother of the quiet town of Gering, Neb., who has introduced a bill to ban football games, specifically, he would forbid use of horns, sirens, cowbells, musical instruments and fireworks.

Ben—THE YOUNG STUDENT. But this is an amendment which we are sure Senator Stratton will support.

Taking Off Without Pilot

Interpreting the News

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON. May 27—The troubadour of the civil rights movement made one clear, left another up in the air, and may mean one of the justices disagrees with his attack.

The decision, which has their roots far back in American history, working up to them a step at a time to the present, makes them clearer.

After slavery was abolished by the 13th amendment (1865), the 14th amendment (1868) not only granted equal protection under the law but assured them of equal treatment with whites.

Nevertheless, Southern states upon returning to the Union began putting restrictions on Negroes. To offset this, Congress passed the Civil Rights Act of 1875, giving Negroes voting rights.

The last one, passed in 1875, assured Negroes of the right to enter public places of amusement.

It seemed to mean there could be no discrimination against Negroes in a privately-owned theater or theater.

In 1883 the supreme court said congress had gone too far and misunderstood the protections guaranteed by the 14th amendment when it passed the Civil Rights Act of 1875.

The court made its decision in five cases, only one of which came from the South. For example, one case, from one from San Francisco and from New Mexico involved exclusion of Negroes from theaters.

Didn't the 14th amendment say this couldn't be done? No, the court said. It said the 14th amendment did not prohibit Negroes from being excluded, but could not pass laws like a segregation law, to discriminate against Negroes.

It made clear the 14th amendment didn't apply to what private businesses, like a theater, did on their own.

Thus the court went back to that 1875 decision which said the 14th amendment prohibited states from compelling discrimination against Negroes.

The court was tight-lipped on the issue of whether it was bound by its previous ruling when it ruled against Negroes on a trespass charge when, protesting a restaurant manager's refusal to serve them while white counter, they staged a sit-in.

Thus the court went back to that 1875 decision which said the 14th amendment prohibited states from compelling discrimination against Negroes.

The court was tight-lipped on the issue of whether it was bound by its previous ruling when it ruled against Negroes on a trespass charge when, protesting a restaurant manager's refusal to serve them while white counter, they staged a sit-in.

But the court left unanswered the question raised by old Judge Hagen 80 years ago: Can an enterprise—run to make money off the public, like a restaurant or theater—discriminate against Negroes?

Judge William O. Douglas said pretty much what Justice Harlan said in 1863 although he was just giving his own views which were not the controlling opinion of the court majority.

There are a few private enterprises, catering to the public, which are not under some state or city control or regulation. This, he said in effect, makes them public and not private, and so they must serve all who come in.

If you ask him what are the colors of the stripes, he will reply, "red, white and blue"—and look at you as if you were impudent.

If you ask him how many stripes there are, after a dutiful school history memory, he'll reply, "13—one for each of the original colonies."

So far, so good. Now ask him, "how many red stripes are there, and how many white stripes?"

After a long and doubtful mental consultation with him, I faintly above it all,

The Doctor Says

By WAYNE G.
BRANDSTAD, M.D.

In many infants, after the first three days of life, there is an opening in the abdominal wall at the navel. Through it, a small part of the intestine may protrude.

Intestines, of the size of the opening, 90 per cent of the time, will return to the abdomen.

It is a rare condition.

navel, close with any

treatment before

the child reaches

such a height.

Such a hernia

is often a great

source of worry to the mother,

especially to the new mother.

Don't have the skin pulled

from either side of the

hernia together with adhesive

tape.

Don't suture,

as an aid to

reduction,

but place it

over the opening before applying the tape.

It has been shown conclusively that this method is safe.

It is not advisable, because the tape soon becomes dirty and is irritating to the skin.

These hernias usually cause no trouble, but if they do, and if proper working of the intestine, but strangulation of the intestinal loop does occur. This is a rare complication and one that I have not seen.

For the small per cent of these

hernias which have not closed by

age 2, I

recommend

an operation.

When a child cannot be

operated on

for some reason,

such as

anemia,

or heart trouble,

or any other

condition,

then I

recommend

an operation.

As there are different kinds

of hernias, there

are different degrees of severity.

Your doctor's advice is sound.

Operation is rarely if ever needed.

It is a type of

operation.

When a child cannot be

operated on

for some reason,

such as

anemia,

or heart trouble,

or any other

condition,

then I

recommend

an operation.

When a child cannot be

operated on

Goldwater Is Eyed by Rally Crowd

WASHINGTON, May 27 (UPI) — About 3,000 persons attended a Goldwater rally last night in Idaho Falls, where the conservative speaker at the beginning of a campaign to make President Kennedy "the first one-term president since Hoover."

Sen. John Tower, R-Tex., and Sen. Barry Goldwater, Wash., candidate who can present "real alternatives" to the Kennedy administration and the Democratic party. If the Republicans did not do this, the conservative said, "we are not going to win in 1964."

Tower cited a Gallup poll which showed that Goldwater was taking the lead over New York's Sen. Robert F. Kennedy. Goldwater, a moderate, is considered a favorite for the Republican presidential nomination.

The rally was organized by members of the Montgomery county Republican organization. Goldwater did not attend.

Besides Tower, Reps. Edward J. Gurney, R.-Fla., and John J. Rhodes, R.-Ariz., also endorsed the Arizona conservative's candidacy.

Ambassador From Algeria Is Changed

ALGERIA, May 27 (UPI) — Even before he got to Washington, Khadour Sator was replaced as Algeria's ambassador to the United States.

An announcement today said Ghazi Qasid, technical adviser to Premier Ahmed Ben Bella, was named ambassador to Washington in a sudden shift.

Ben Bella had been appointed by President Johnson last week and the U.S. embassy had given him a send-off reception.

The government gave no official reason for such a switch. Ben Bella wanted to send someone from his personal staff to Washington. Sator is expected to be named to a high post in the foreign ministry.

U.S. Consul In Rhodesia Quits Hike

SALISBURY, Southern Rhodesia, May 27 (UPI) — U.S. Consul General Paul S. Green, 49, who as chargé d'affaires has made the African bush country pay up the halfway mark with blisters on his blisters.

The footsore and weary Green, nicknamed the "Arkansas Traveler" by other members of the diplomatic corps, has been down on the last 45 miles to Salisbury where he promptly went to bed to sleep off the effects of the marathons march.

The march was sponsored by the Rhodesian Society of the Americas, the largest chapter of the Rhodesian fields in the middle of Rhodesian Bush (bush country) at dawn yesterday.

About 80 starters lined up for the 100-mile walk through the African sun. While most marchers wore trail suits, running shorts or levis, Green was dressed like a typical diplomat out for a walk.

The 6-foot, 7-inch Green sported neat dark gray slacks, a white shirt, and strong well-preserved brogues, topped by a navy fedora.

However, Green's racing number 14, pinned fore and aft, somewhat ruined his "diplomatic appearance."

Sugar Price to Raise Food Cost

NEW YORK, May 27 (UPI) — General Foods corporation announced today it is boosting by about five cents the average price of its products which have sugar as a major ingredient effective immediately.

A 1 cent price increase is expected soon to be passed on to the consumer at the retail level. Products affected are raisins, desserts, puddings, piefillings and syrups.

OKAYS KILLING EAGLES

WASHINGTON, May 27 (UPI) — Interior Secretary Stewart L. Udall today authorized the killing of golden eagles in the Colorado counties of Garfield, Mesa and Monroe through June 30 to protect livestock, especially lambs.

For Month Rent, Credit to apply on purchase later on CLAUDE BROWN'S MUSIC & MAIN KART

Tense Nerves Block Bowels

Your colon has nerves that control regularity. When you are tense or nervous, normal bowel impulses may be blocked—and you become constipated. Now Claude Brown's Music & Main Kart offers a special product—colonics, never stimulant plus special building actions recommended by many doctors. Result: Colonitis may now be controlled completely. You feel great! Get clinically-proven COLORADO TODAY. Introductory fee \$2.00.

News Around Idaho

BOISE, May 27 (UPI) — Appointment of Frank Powell, an assistant Idaho attorney general, as legal counsel for the employment security agency was announced today by H. Fred Garrett, the agency's executive director. Powell succeeds John Gunn who resigned to enter private law practice in Weber.

CALDWELL, May 27 (UPI) — Commencement exercises are scheduled June 1 for nearly 160 graduating seniors of the College of Idaho. Dr. Alfred M. Poome, Boise, chairman of the board of trustees, will be commencement speaker.

CALDWELL, May 27 (UPI) — Idaho's Young Republicans are expected to endorse Rep. Charles McDevitt, R.-Ada, as a candidate for president of the state organization next week. McDevitt, a member of the Canyon County Young GOP acting as host, McDevitt, a Boise attorney who has served in one session of the legislature, is regarded as a leading contender for president of the national organization, which will convene later this month in San Francisco. Tom Goller, Boise, is stepping down as state president and Richard Radling, Boise, and Wayne Clegg, Nampa, are seeking the post.

POTATELLO, May 27 (UPI) — Located just west of Tulare, two members of the Tulare school board, Mr. and Mrs. John W. Johnson, will be the first to choose from a list of four former school teachers to choose from. The two winners will join a sanitarian, a farmer and a minister in the five-man board in charge of the second largest school district in the state. Dr. Lloyd Call, unopposed, is expected to win new three-year term. Opposing each other for the second seat are Harry Miller, Orr, and former Potateello high school teacher Eugene Price, now employed in the freight office of Union Pacific railroad.

POTATELLO, May 27 (UPI) — The Potateello Junior Chamber of Commerce is planning to sponsor an expansive junior leadership and field program in Potateello this summer. The program will tie in with the national junior champ track development program. Joseph Richmond, member of the Idaho State college athletic staff, and Byron Toms, Potateello school district physical fitness director, will head the program.

POTATELLO, May 27 (UPI) — The last segments of a 1,450-unit military convoy moved through Potateello for the second time Monday. They are elements of the fifth infantry division, returning to Fort Carson, Colo., from Exercise Coulee Crest at Yakima, Wash.

POTATELLO, May 27 (UPI) — Area will get inside information on weather problems in aviation on June 8, in a weather seminar sponsored here by the U. S. weather bureau. The seminar, one of several held in the nation each year, will be held at 8 a.m. at the Potateello municipal airport. Other invited speakers include agricultural weather, aviation weather and aircraft icing.

ARCO, May 27 (UPI) — Some 1,900 East Idahoans and visitors Sunday urged to work toward making the state's first nuclear power plant a thriving enterprise, by Alan E. Shepard, Director, 35th annual opening ceremonies of the Sisters of the Moon national monument. Shepard encouraged Idahoans to take pride and interest in their state, to describe what it has to offer, and extend cordially to the traveler so that he will want to return again.

SODA SPRINGS, May 27 (UPI) — Officials of the Central Farmers fertilizer plant in Georgetown canyon say the plant will continue full scale this summer, but there will be a recess in continuing operations. Manager Max Latting said the slowdowns are due to accumulated dirt and caused by a failure of furnace burners during the past year. He said it would be late summer before mining operations resume. The approximately 300 men working at the plant will remain on the payroll, with those employed in the mining operation to be idled.

POTATELLO, May 27 (UPI) — Four men, two Idahoans, a Utahn and a Wyoming resident, were presented scouting's highest award here Saturday night—the Silver Beaver. The awards are given to adult scouts by local Boy Scout units, for distinguished service to scouting. Receiving the awards were Arthur Lee Goff, Portage, Utah; LaVarr Jacklin, Blackfoot; J. Grant Blackmore, Potateello, and Ralph Thienor, Aton, Wyo.

COEUR D'ALENE, May 27 (UPI) — No trace has been found yet of the body of Robert L. Foote, 28, Spokane, Wash., who died May 11 while swimming off the coast of Lake Coeur d'Alene. His body was thrown into the water when the boat was swamped by the wake of a larger craft. A companion, Ray Sweeney, Spokane, managed to reach shore.

Juveniles Are Helped By Program

MOSCOW, May 27 (UPI) — Idaho's eight-year-old youth rehabilitation act has resulted in reduced delinquency of the state's practices in treating juvenile delinquents.

This view was given at the annual meeting of the Idaho Probate Judges Association today by Dr. Terrell O. Carver, Idaho administrator of the state's juvenile justice system.

Since the youth rehabilitation division was created by the 1956 legislature, Carver said, it has expanded to the point where it offers services to most areas of the state.

"We are well aware that what we do is important, but we are not doing all the job that is needed," Carver said. "But we are also aware that we have come a long way in the past eight years."

Rites Set

BURLIN, May 27—The annual Memorial day services sponsored by Legion posts will be held at 11 a.m. Thursday at the Buhl city cemetery.

Dr. Charles Cuillings will be featured speaker.

Members of the local VFW post will serve as the firing party for military rites.

This view was given at the annual meeting of the Idaho Probate Judges Association today by Dr. Terrell O. Carver, Idaho administrator of the state's juvenile justice system.

Since the youth rehabilitation division was created by the 1956 legislature, Carver said, it has expanded to the point where it offers services to most areas of the state.

"We are well aware that what we do is important, but we are not doing all the job that is needed," Carver said. "But we are also aware that we have come a long way in the past eight years."

They widened barriers on the mile-long country road to the West Berlin fire engine and other trucks would be able to get through them.

Steinstuecken's Road Is Widened

BERLIN, May 27 (UPI) — East German police said by American tourists who came to the town to see the Berlin wall that they will be allowed to cross the wall to West Berlin fire engines and other trucks would be able to get through them.

In short ones before dinner...in tall ones after

South Now Faces Historic Choice

ATLANTA, May 27 (UPI) — The U. S. supreme court's recent affirmance of the civil rights bill could mean the South's historic choice in nine years, according to the executive committee of the Southern Regional Council.

The council, in a statement issued over the weekend, said the ruling set before the South "a renewed opportunity for the use of magnanimity and intelligence which turned our backs on in 1954."

The integrationist group charged that the South responded to the 1954 school desegregation decision "with a self-glitzing display of malice and fury."

YOUR BIRTHDAY and HOROSCOPE

MONDAY, May 27—Born to day, you have a great range of talents, from which to all but don't try to develop them to perfection. Don't take this warning lightly. Try to change to the fulfillment of your basic potential along any one line. If you start from trying to fulfill that potential along too many lines, it will do one thing, and you will have no difficulty fitting the top.

You have an inborn love of humanity in general, and sometimes your heart is really too big for your own good. Learn to live in the here-and-now, and get your proper quota of business finished on time. Plan a relaxing evening.

AQUARIUS (Jan. 21-Feb. 19)—Push work on routine affairs off, and let your imagination take advantage of what is available. It is simple to improve your financial status. Avoid any risk to reputation, however.

TAURUS (March 21-April 19)—Take care of vital employment issues first. During leisure hours you will be simple to improve your financial status. Avoid any risk to reputation, however.

ARIES (March 21-April 19)—Meet others confidently. Make it a point to be especially well-groomed today as you may want to make an impression.

Outgoing by nature, you have little trouble making and keeping friends. You are somewhat inclined, however, to become involved in simple disputes with family members.

PICTURES (April 20-May 18)—Take advantage of what is available. It is simple to improve your financial status. Avoid any risk to reputation, however.

PISCES (Feb. 19-March 20)—Meet others confidently. Make it a point to be especially well-groomed today as you may want to make an impression.

Those born on this date are: Dante, Arnold Bennett, English author; Cormellus Vanderbilt, financier; Julia Ward Howe, author.

To find what is in store for you tomorrow, consult your birth day star in the Astrology column. Let your birthday star be your daily guide.

Tuesday, May 28

GEMINI (May 22-June 21)—Changes in surroundings could bring much improvement, which in turn will bring financial gain. Play your cards right!

CANCER (June 22-July 22)—Make it a point to keep important business matters moving. Personal disputes over personal matters should be strictly avoided.

LEO (July 24-Aug. 23)—Daily affairs on the job should progress normally. Best results if you keep home and family affairs from becoming a distraction.

WIRGO (Aug. 24-Sept. 22)—Important plans and projects for the future should receive your consideration, without further delay. Look into matters of importance.

LIBRA (Sept. 24-Oct. 22)—An excellent time to work out new ideas and make improvement on some old ones. Push existing projects into high gear operation.

SCORPIO (Oct. 24-Nov. 22)—

Senator Calls Legislatures Great Menace

NEW YORK, May 27 (UPI) — Senator George S. Clark, Democrat of Illinois, says the joint efforts of state, city, state and national legislatures are the greatest menace to the democratic operation of the democratic political process.

Clark, former mayor of Philadelphia, gave his opinion in "The elite and educated," which was published by the Center for the Study of Democratic Institutions. He had this to say for the executive and judicial branches of the municipal government: "The municipal, state and federal levels, describe them as 'doing better than we have any right to expect' in the third branch, the government, where they have 'done very little,' he said, "where we look at city councils, the state legislature, the Congress of the United States, and conclude that what we have done is scarcely conceivable."

Clark said the legislative branch is where "the vested interests lobbies run riot, where conflicts of interest are checked, where demagoguery knows few bounds, where political steps needed action at all times, were the plutocrats' chief concern, while the public interest is often at a premium and wisdom at a discount, where the evil influences of avarice and corruption, political machine politics, and successful public servants for the public interest, where the public interest, where the public patronage and favor for the faithful do the greatest damage to the public interest."

Clark said the proposed improvements in living conditions, pay, retirement benefits, and working conditions for public servants to make government service more attractive to talented men and women.

He also proposed improvements in living conditions, pay, retirement benefits, and working conditions for public servants to make government service more attractive to talented men and women.

Clark said he favored strengthen-

ing the executive branch of the government at the expense of the legislative. He suggested lengthening the term of representation from two to four years, shortening senatorial terms from six to four; scheduling all congressional elections in presidential years; reform of legislative committees; revision of laws, rules and procedures; and speeding up reappointment of legislative districts.

SPECIALIST TRAINS
JEROME, May 27—Army Spec 4d Steven E. Ross, son of Mr. and Mrs. Joseph J. Rasch Jerome, participated with other members of the fourth infantry division in a four-day training course in the Concourse Center at Yakima, Wash., firing center. Ross is a gunner in company A, first battle group, 12th Infantry, at Ft. Lewis, Wash.
